Improve productivity in your office

Tuesday booths are a revolutionary solution for the workplace of the future! Finally, a low cost, self-assembly and high performing acoustic booth can be used to solve all the productivity issues of a noisy open office space.

Our booths are built to the highest standard and made from quality materials providing superior sound absorption and comfort. With Tuesday booths you can now ensure a peaceful and productive work environment no matter how noisy or disruptive your surroundings may be.

Why do you need an acoustic booth in your office?

Open space offices are noisy and full of distractions, budgets are usually tight. That's why we've developed affordable phone booths and office pods.

You lose

86 min

a day due to distraction working in an open-plan office.

Over

49%

of employees find the acoustics in home office environments better than in the office.

You are

15%

less productive working in an open-plan office.

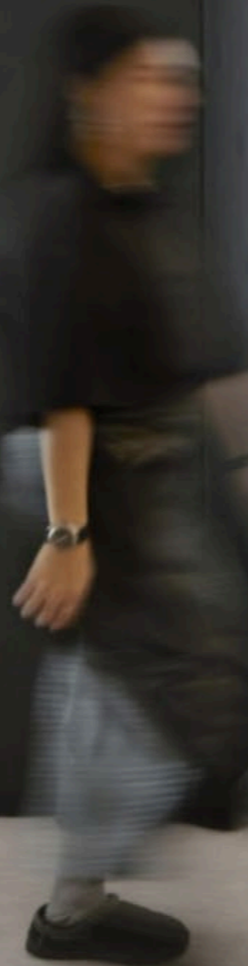

Tuesday.

Working. Better.

The perfect solution for a productive workspace.

For a distraction-free place to get work done, Tuesday pod is the answer.

Tuesday.

We thoughtfully designed every detail of the Tuesday pod to create a more productive way to work.

Our booths comes with everything you need

Tuesday.

Save space

Our booths require less than a third of the floor space of a traditional meeting room.

Premium material

We have laboured meticulously over our design to ensure our booths are built-to-last, sustainable and look great.

Save money

Booths provide a flexible addition to your current workspace with a much lower fit-out cost. The best part - our booths are portable so will move with you to your next tenancy, saving you money.

Save time

Need meeting space in a hurry? Our booths are delivered flat-packed and self-assembled within 30 minutes. They are plug-and-play ready via a standard power point.

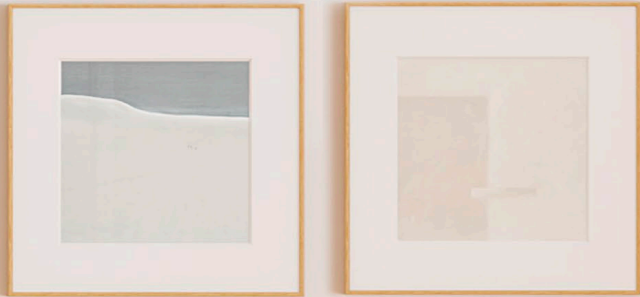

Tuesday home

Studying. Better.

Tuesday home is designed to provide a comfortable and relaxing home space, to ensure a pleasant and stress-free environment.

Better Spaces.

Acoustically controlled environment to enhance motivation, well-being, mindfulness, productivity and focus.
