Modern Applications:

Lights, Power, Action! Within the Tuesday booth sits a mini sofa, cushioned for comfort but primarily for support, complimented by an organically curved task desk. Equipped with a directional task lighting bar and singular UL/CE 220-240v power socket (UK or EU) with 2 * USB and 1 * USB-C will power the devices required. The PIR sensor will help save on power, automatically turning off after 5mins of not being occupied.

Sound isolating double walls:

Our booths maintain a $R_w + C_{tr}$ 30db (+5 db) by utilizing a market leading double walled technology.

Passive Lighting:

TTuesday booth also has non-directional main *4000k (150Lx) Daylight LED lighting, offering a comfortable, well aired environment.

Air flow technology:

Replacing the air regularly within the Tuesday booth helps the occupant feel fresh and comfortable and surrounds them with fresh oxygen every 2 minutes, promoting health and wellbeing.

Flexible and movable:

Tuesday booth can be moved in minutes; lower the levelling legs allowing the castors to take over and move where ever you want!
